Opening Song: [Wake Up America](#) by Miley Cyrus

Opening Words: UU Office at the United Nations

The term “climate justice” invites us to consider the climate crisis from the perspective of politics, social justice, and human rights, rather than simply a scientific, physical phenomenon. The fact of climate change has far more than meteorological implications: It will change the way that most species on Earth live. We recognize this as a justice issue because of the possibilities to organize and respond to the climate crisis in a way that prioritizes the needs of those people and communities that are most vulnerable. Rather than examining the scientific causes, impacts, and solutions, this year’s United Nations Sunday theme invites us to explore the human causes, impacts, and solutions.

If ever there were a time for a candle in the darkness, this would be it.

 kindle the flame of love,
 ignite the light of peace,
 and feed the flame of justice.

Prairie UU Society Bond of Union

We, the members of Prairie, wish to associate ourselves together in a religious community which affirms that we share a common humanity, that we need one another, and that our futures are inescapably bound together. Together we would expand our intellectual horizons, enrich our sensory experiences, and deepen our emotional sensitivities. We would sharpen our ethical awareness and broaden our sense of social responsibility. We would stand tall in our quest for integrity of life, yet not at others' expense. As the prairie stretches out until it becomes one with the sky, let us reach out to touch and be one with the natural world, and with one another.
